

Member Library Mileage Equalization Grant Program - 3rd DRAFT

When funding permits, the Mid-Hudson Library System (MHLS) provides an equalization mileage grant to its member libraries based, in whole or in part, on the IRS business rate. Reimbursement is contingent on member libraries providing their staff reimbursement at the IRS rate for travel to attend training or to participate in meetings sponsored by and located at MHLS. The number of claims, the amount of the match, and the total available funding shall be periodically determined by the MHLS Board of Trustees. The first 20 miles each way between MHLS and member libraries shall be excluded from reimbursement. Procedures for claims and payment shall be established by the MHLS Executive Director.
