6. DIRECTOR'S REPORT

In addition to her written report (Doc. 6), Executive Director Aldrich reported that:

- The state budget briefing indicates the possibility that the 20% in aid withheld last fiscal year will be converted to a permanent 5% cut with funds potentially restored in the first quarter of 2021. \$87 million has been allocated for state aid to libraries in the budget proposal put forth by the Governor with \$14 million allocated for the State Aid for Library Construction Program. If this is the final number in the budget passed by the legislator, it would represent a 10% cut in operating aid for the system compared to FY2019.
- Ms. Aldrich reported on the New York State Library's effort to modernize elements of the library program including creating more flexibility in the Coordinated Outreach and Central Library programs.
- A review of the service level status of member libraries reveals a trend towards the conservative delivery of services due to the spike in COVID-19 infections after the holidays. It is predicted more libraries will go back to summertime levels of service in the coming weeks as the infection rate subsides. Libraries continue to make data-driven decisions and follow best practices promoted by the NYS Department of Health to keep library workers and the public safe.
- Ms. Aldrich reported on her efforts to ensure library workers have clear and early access to available COVID-19 vaccines.
- Ms. Aldrich reviewed the warrant officer schedule and process.
