Plan of Service | Mid-Hudson Library System

http://midhudson.org/about-mhls/mhls-plan-of-service/

5-year Public Library System Plan of Service is required by the State
- It is a planning document which identifies, organizes, and provides an overview of the library system’s service program including intended changes in services or priorities.
- It emphasizes what the library system proposes to accomplish and whom the library system serves.
- It demonstrates how the library system anticipates it will fulfill the major roles expected of library systems.

Purpose of the Plan
- Articulate the basic agreement between the State and the governing board of the system, which makes possible the payment of state aid to the system.
- Enumerate the mutual commitments, responsibilities and obligations of the system and its members.
- Share the system’s mission, goals, intended results and evaluation methods with its members.
- Determine how the system meets the service needs of its community, region, and the State.

**Annual Reporting of Library System Accomplishments:** Using the goals stated in the Plan of Service, MHLS is required to submit summary progress reports of the annual results of each element to the New York State Library Division of Library Development.

**How the 2017-2021 MHLS Plan of Service Was Developed:**
- Comprehensive assessments of the 16 Service Elements were provided by MHLS through the Moving Forward process [http://midhudson.org/topics/statistics-research/moving-forward](http://midhudson.org/topics/statistics-research/moving-forward).
- Based on the service assessments, stakeholders completed a prioritized ranking of Service Elements.
- Member needs were assessed through 15 sessions with stakeholders held June-September 2016. The sessions resulted in reviews, comments, and edits of four drafts of the Plan of Service with the final draft approved by the DA and the MHLS Board of Trustees.
