President's Report | July 2021

- Welcome back to our first face to face meeting since January 2020. Despite the change in our meeting style, due to rescinding the Governor's order, each of us should consider our personal comfort and care. Feel free to use masks or not; keep a reasonable distance; ask to be included in meeting virtually understanding the requirements and conditions that are imposed on us by the public meeting regulations.
- We will be initiating the evaluation of our Executive Director through the use of the online tool used over the past few years. The link to the tool will be sent on Thursday July 15 to all of the MHLS Board to be completed by July 30th.
- The Board completed its first self-evaluation with 100% participation. The results of the evaluations will be summarized and reported back to us by the Board Development committee later this year.
- The Pawling Library had an important anniversary this year, 100 years, that was marked through an event on Saturday May 22nd with a Dixieland style concert and picnic in the park. This event also launched the public announcement for fundraising to build a new children's wing onto the current library. I was honored to attend this event and witness our County Executive, Mark Molinaro, announce a contribution of \$200,000 through the county community development grants.
- On July 22, Assemblywoman Didi Barrett will participate in a public meeting at the Clinton Community Library during which she will announce grants through NYS for libraries in her district. I will be attending along with Rebekkah and other members of the library community to thank Didi for her ongoing support and dedication to our library mission.
- The Dutchess County legislature announced grant funds provided through the America Rescue Plan Act for each of the Dutchess County Libraries, up to \$50,000 for youth programs and services.
- We will be beginning negotiations for the next contract with the CSEA Union which represents approximately 50% of our employees. You will be hearing more about this at our September meeting.
- We have many collaborations that are occurring thanks to the work of our MHLS staff and especially Rebekkah, including:
 - The opportunity for our professional library staff to enroll in post graduate studies through LIU – Palmer School of library sciences
 - Four libraries participating in programs and services related to sustainability and resilience through Partners for Climate Action of the Hudson Valley and the New World Foundation
 - Leadership of a new ALA taskforce on sustainability that Rebekkah has been named chair
 - And a new relationship to continue our work on equity, diversity and inclusion by using a self-assessment tool from the Michigan Nonprofit Association through a collaboration with the Community Foundation of the Hudson Valley. This tool will be provided to each of us to complete in September.
