Subject: Right On!

Thank you for your excellent message in today's MHLS Bulletin, Rebekkah!

It's reassuring to know that our system supports the work we do in the face of the aggressive climate we are in currently.

Be well!

Best,
Alison
Hi Rebekkah,

Thank you for this thoughtful and affirming statement in the latest bulletin! A great way to draw together all the positive work libraries are doing for our communities.

Writing this from my parents' porch in rural western Wisconsin, looking out over a field of fresh corn and a lush green forest beyond, with the sun giving everything a lovely late-afternoon glow... this is a much-needed vacation but your message in the bulletin actually made me excited to be back at my library!

Best,

Ivy
